

Serial No. 10/005,757

Amendments to the Claims.

A following listing of claims replaces all prior versions and listings of claims in this case.

Claims 1-4 (canceled).

Claims 5-6 (previously withdrawn).

Claim 7 (new): An extended text label for a multiple-use tube container in combination, wherein a tube container includes a product dispensing end having a dispensing cap and a filling end opposite said product dispensing end, said filling end including a crimp closure portion that is crimped subsequent to filling said tube container with a selected product, wherein said label is securely joined to said filling end of said tube container by way of said crimp closure portion.

Claim 8 (new): The combination of claim 7, further including a pliable attachment tongue extending outwardly from said label such that said tongue is securely joined to said filling end of said tube container at said crimp closure portion.

Serial No. 10/005,757

Claim 9 (new): The combination of claim 7, further including a tear off portion for permanently removing said label from said tube container after said label has been securely joined to said filling end of said tube container at said crimp closure portion.

Claim 10 (new): The combination of claim 8, further including a tear off portion for permanently removing said label from said tube container after said label has been securely joined to said filling end of said tube container at said crimp closure portion.

Claim 11 (new): A method of providing an extended text label for a multiple-use tube container, comprising the steps of:

providing a multiple-use tube container having a product

dispensing end with a dispensing cap, and a filling end opposite said product dispensing end;

filling said multiple-use tube container with a selected product at said filling end; and

securely joining an extended text label to said filling end of said tube container, by way of a crimp method of sealing said filling end.
